Summary
Full-Stack Software Developer. Set my focus on Cybersecurity in high school. Joined a JavaScript Web Development class while in college. Was self-taught for 4-6 months and later enrolled and completed a full-stack coding bootcamp.

EXPERIENCE

POP Umai - Freelance (*https://github.com/PreDevz/POP-Umai*) Aug-Sept 2022

Worked with a small team to develop a full-stack application for a local business, POP Umai.

- Laid out and updated each member's current tasks on the project board while collaborating and keeping the code flow smooth.

- Worked on backend Rest API routes, and created the cookies and session to have an administration system for our client.

Application uses Node.js, Express, MySQL, Sequelize, Handlebars.js, Bootstrap, and is deployed on Heroku.

PROJECTS

N8 Tech Blog (*https://github.com/TDGNate/Tech-Blog*)   Sept 2022

Full-Stack CMS-style blog site where developers can publish their blogs and add comments on others. Users can also view all their posts and comments along with having access to update/delete their posts/comments from their dashboard.

Technologies and Tools: Handlebars.js, Bootstrap, Node.js, Express.js, MySQL, Sequelize (ORM), express-session, SweetAlert, fontawesome

Platello (*https://github.com/PreDevz/Platello*)   June 2022

Web application that takes user's input of cuisines and drinks they desire, that could also exclude specific ingredients if they list what they want to exclude. We used 2 APIs (Spoonacular and CocktailDB) for making specific requests for the user. After selections, 3 generated dishes and drinks will appear with its recipe, ingredients, and cook time.

Tools: Materialize, JQuery, APIs, Localstorage

EDUCATION

University of California Riverside (UCR) Extension Bootcamp,
Riverside CA — *Certificated*

May 2022 - Oct 2022

Successfully completed full-stack software engineering program

Orange Vista High School, Perris CA — *Diploma*

Aug 2017 - May 2021

TECHNICAL SKILLS

Languages/Frameworks:
- JavaScript (ES6)
- JQuery
- React.js
- Nuxt.js
- Node.js
- Express.js
- MySQL
- MongoDB
- Bootstrap
- SASS
- Materialize
- HTML5/CSS3

Tools:
- Git and Github
- NPM
- Heroku
- Insomnia
- MVC
- Sequelize (ORM)
- Inquirer
- Mysql2
- Handlebars.js
- RESTful APIs

SKILLS

- Problem solving
- Very passionate about learning new technologies
- Productive and a collaborative team player

AWARDS

First Degree Black Belt
Successfully completed all series leading to black belt awarded by American TaeKwondo Associations (ATA) in November of 2017
